

NEWSLETTER

OCTOBER 2024

This International Children's Day, we reaffirm our dedication to creating a nurturing and supportive environment for children and adolescents by implementing initiatives underscoring our goal of providing children with the tools and knowledge they need for a healthy and empowered life.

In this quarter, our programs have taken significant strides in areas like immunization linkages, menstrual health and hygiene for young girls, plastic waste management to build a climate-resilient future, life skills education, and communication on adolescent anaemia.

LIGHTING UP LIVES

We raised funds to bring solar-powered light to 500 families in Shahada Block, Nandurbar district, transforming lives and filling homes with the warmth of a brighter future. In partnership with CYDA, these solar lamps were distributed to those most in need, illuminating new paths of hope and resilience.

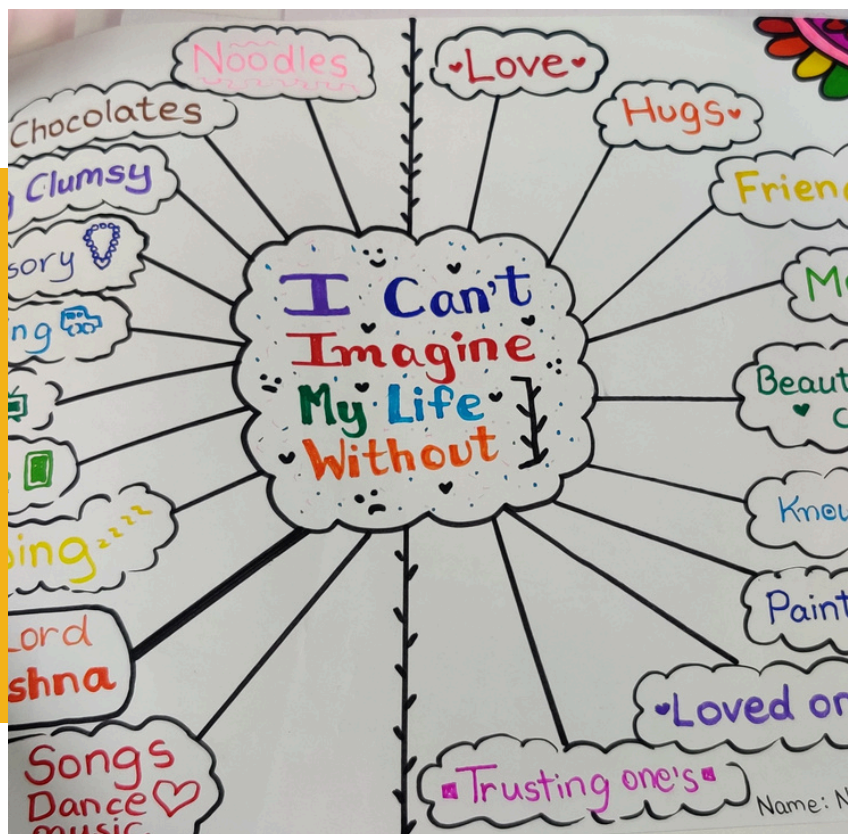

CLEAN HANDS, HEALTHY FUTURES

On October 15, 2024, we celebrated Global Handwashing Day with the theme, 'Why Are Clean Hands Still Important?'

Children took on the role of change-makers, emphasizing the importance of clean hands through engaging activities to reinforce the vital message that clean hands are essential for health.

BUILDING TOMORROW'S LEADERS

As a step toward shaping confident, capable young leaders, we are empowering 3,112 adolescent girls and boys, with essential skills for personal growth and resilience through our life skills education program.

This initiative focuses on building self-awareness, enhancing communication, fostering positive relationships, and strengthening problem-solving and decision-making abilities.

Did You Know?

87%

of pre-pubertal girls responded that they feel **uncomfortable discussing menstruation** openly.

This insight highlights the **need for continued education and supportive conversations** to break taboos and foster openness around menstrual health.

EVERY GIRL'S RIGHT: MENSTRUAL HEALTH AND HYGIENE

We recently reached 14,500 adolescent girls in Mumbai and 7,000 in Palghar as part of our mission to empower girls with essential knowledge on menstrual health and hygiene supported by MAFFFL and Kotak Mahindra Capital Company Limited.

This initiative fostered open discussions on body changes, menstrual myths, and taboos. Each girl received a kit containing reusable cloth pads and underwear, promoting eco-friendly hygiene for a healthier, brighter future.

CLIMATE ACTION

Ms. Utpala Thacker from Bombay Community Public Trust visited few schools to interact with the children segregating and collecting plastic waste. Through the support from BCPT we have been able to educate 8000+ children and they have segregated 700 kgs of plastic waste

IMMUNIZATION

Our routine immunization intervention with support from UNICEF has been officially launched in Malegaon and Bhiwandi, after months of planning and groundwork. Our team is on a mission to reach over 6,000 children, building community capacities and creating strong healthcare linkages to ensure better protection for every child.

Since 2022, we have been educating school children to practice waste segregating at source and importance of circular economy in urban and rural communities and providing recycled products.

ENVIRONMENT SUSTAINABILITY AND MENTAL WELL-BEING

In collaboration with our long-term partner EPL, we organized impactful activities in 3 gram panchayats to promote environmental sustainability and mental health.

These included stress management sessions for adolescents, self-care workshops for women in the community, a plastic exchange event, and creative "best out of waste" workshops

SWACHHTA HI SEVA

In October, we celebrated Swachhata Hi Seva by organizing a range of activities to promote cleanliness through community participation and drives. This included Swachhata Shibirs, health check-ups camps and hygiene kits for 1000 Safai Karamcharis, and recognition of their contributions to a cleaner and healthier India.

SUPPORT US

We are dedicated to making lasting change for children and communities across India by focusing on key areas like well-being, WASH, health, nutrition, and menstrual health.

Your contribution helps build a corpus fund that ensures long-term impact and sustainability.
